During the Fall of 2009, the District contracted with the National School Public Relations Association (NSPRA) to conduct a Communications Audit as part of the District's current Strategic Plan. The audit report has been received and reviewed by the Board of Education and the Administration. A Communications Plan is being developed using many of the recommendations from the audit report. The complete audit and an executive summary of findings and recommendations are posted on the District Web site. Upon Board approval of the Communications Plan, it will also be posted online. Thank you to all of the District 57 parents, community members, and employees who participated in the audit process.
